

HAMILTON POLICE SERVICE

INFORMATION REPORT

TO:	Chair and Members Hamilton Police Services Board
BOARD MEETING DATE:	April 28, 2022
SUBJECT:	2021 Year End Report – Crimes Against Seniors Unit
REPORT NUMBER:	22-031
SUBMITTED BY:	Frank Bergen, Chief of Police
SIGNATURE:	

EXECUTIVE SUMMARY

In 2004 the Hamilton Police Service recognized the need for a dedicated unit addressing the issue of crimes against seniors. As a result, the Crimes Against Seniors Unit (CASU) was formed. It was the first unit of its kind and has set the standard for other Police Services to follow. The Unit currently consists of one Detective and one Detective Constable. The Unit works with and is supported by three divisional Senior Support Officers (SSO).

INFORMATION

CASU is responsible for the investigation of crimes against persons 60 years of age or older or vulnerable adults, who are being victimized primarily because of their age or vulnerability. The CASU works closely with community agencies to ensure all reported cases of assault, financial exploitation and neglect against the elderly are investigated. Many of the investigations are complex and time consuming involving knowledge of Powers of Attorney.

Detectives must have knowledge of family dynamics and be able to utilize prevention, safety planning and effective intervention. Investigators are aware of the different forms of abuse, neglect and financial exploitation and are able to identify subtle and overt signs of abuse, know what actions are required and are familiar with the network of social and age related services that support senior abuse victims.

CASU is a member of the Law Enforcement Agencies Protecting Seniors (LEAPS) Committee and the Joint Agency Intelligence Liaison (JAIL) who engages in regular community awareness campaigns including presentations in person and on social media platforms.

Vision: To be a trusted partner in delivering public safety.

Mission: To serve and protect in partnership with our communities.

Our Values: Compassionate, Dedicated, Inclusive, Integrity, Innovative, Professional, Teamwork

COVID-19 has had a significant impact upon all aspects of our life and this includes the operations of the CASU. The delivery of education and awareness programs were impacted due to restrictions brought about by COVID-19.

In 2021, the CASU members arrested 7 people and laid 22 charges. This 2021 year-end report outlines the crime trends, issues and challenges faced by CASU during COVID-19.

Crimes Against Seniors Unit

2021 Year End Report

INTRODUCTION

The Hamilton Police Service Crimes Against Seniors Unit (CASU) was created in 2004 in response to the growing concern of Elder Abuse among Hamilton's aging and vulnerable population. The unit was the first of its kind in Ontario and continues to be a leader for its advocacy and investigative expertise. CASU Detectives are assigned to the Investigative Services Division (ISD) and work out of the Victim of Crimes Branch. CASU, works closely in collaboration with the Seniors Support Office in each of the Divisions to investigate all types of elder abuse and quality of life issues pertaining to vulnerable persons and seniors (60+) in Hamilton.

The population of seniors across the Country continues to rise. This is expected to continue as a result of new technology and advancements in medical sciences. Today's seniors have more choices for living, working, retiring and staying active. According to Statistics Canada, life expectancy in 1921 was 57.1 years, compared to 81.7 years in 2011. Further, from 2011 until 2021 alone, the life expectancy in Canada has increased to 82.6 years. As the population of seniors continues to increase, so does the number of those who may be susceptible to victimization. Although once considered a hidden problem, elder abuse is becoming more and more of a growing issue. This issue is one that needs to be on the forefront of police services across the country.

Total and Share of Population 65 and over by Decade (1971- 2080)

Source: Statistics Canada (1971 -2010) and Office of the Superintendent of Financial Institutions (2020-2080). Taken from [http:// Canada.ca/en/employment-social-development/programs/seniors-action-report.html](http://Canada.ca/en/employment-social-development/programs/seniors-action-report.html)

Seniors (65 years and older) are the fastest growing age group in Ontario¹. This population trend is also prevalent in the City of Hamilton. In 2006, the population of the City of Hamilton was 504,559. Of that population, 75,400 or 14.9% are persons over the age of 65. In 2021, the population increased to 569,353, with an estimated increase of **18.8%** of seniors over the age of 65. As the aging population continues to increase, so do the needs for preventative and reactive policing initiatives.

The City of Hamilton Population Growth Change

Year	City Population	City Population (Age 65 +)	Percentage of City (Age 65 +)
2006*	504,560	75,400	14.9%
2011*	519,950	81,575	15.7%
2016**	536,915	92,910	17.3%
2021**	569,353 (Est)	106,867 (Est.)	18.8% (Est.)

¹ Government of Ontario, 2019, “Archived – Aging with Confidence: Ontario’s Action Plan for Seniors”. <http://Ontario.ca/page/aging-confidence-ontario-action-plan-seniors>.

BACKGROUND

According to the **World Health Organization**, elder abuse can be defined as a single, or repeated act, or lack of appropriate action, occurring within any relationship where there is an expectation of trust, which causes harm or distress to an older person. Elder Abuse can include physical, psychological/emotional, sexual and financial abuse. It can also be the result of intentional or unintentional neglect.² Reporting is completed on the Crimes Against Seniors Unit referral form (APPENDIX A) and is sent to CASU for review and assignment. The reporting and calls for service to the CASU and SSO in 2021 has decreased significantly. It is suspected that isolation due to COVID-19 has led to a decrease in the reported incidents of criminal abuse and neglect among the aging and vulnerable population.

CRIMES AGAINST SENIORS UNIT

CASU currently consists of one Detective and one Detective-Constable. CASU is responsible for the investigation of crimes against persons who are being victimized primarily because of their age or vulnerability. Specifically, persons 60 years of age and older or vulnerable adults (persons 18 years of age and older) who are or may be unable to take care of themselves or is unable to protect themselves against harm or exploitation by reason of age, illness, trauma or disability or any other reason. The unit works closely with community agencies to ensure that all reported cases are properly investigated, including:

- Criminal Abuse, Neglect
- Exploitation,
- Financial Abuse,
- Sexual Assaults in conjunction with the Sexual Assault Unit,
- Fraud and Theft by Power of Attorney cases
- Sudden Death in LTC and Retirement Homes
 - Any incidents of death in a LTC and Retirement Home is investigated by the Coroner under the Coroners Act. When a person dies in a LTC or Retirement Home the person in charge of the home shall immediately give notice of the death to a coroner and, if the coroner is of the opinion that the death ought to be investigated, they shall investigate the circumstances of the death and may request the Hamilton Police Service to assist them in their investigation.

² World Health Organization (2018) “Elder Abuse”, Fact Sheet, <http://www.who.int/mediacentre/factsheets/fs357/en/>

- The impacts of COVID-19 will be studied for many years to come but at its first glance the virus has had a profound negative impact on seniors living in Long Term Care (LTC) and Retirement Homes in Hamilton. The City of Hamilton has numerous documented outbreaks in seniors' facilities throughout the City. Hamilton Public Health and Provincial Regulatory Authorities have monitored these outbreaks. Retirement Homes are regulated by the Retirement Homes Act, 2010 (RHA) and are overseen by the Retirement Home Regulatory Authority. Long Term Care (LTC) Homes are regulated by the Long Term Care Homes Act, 2007 (LTCHA) and is overseen by the Ministry of Health and Long Term Care. It is provincially mandated that Retirement Homes and LTC homes in Hamilton are required to immediately notify the Hamilton Police Service of any alleged, suspected or witnessed incidents of abuse or neglect of a resident that they suspect may constitute a criminal offence. In 2021, The Hamilton Police Service had not received any requests from the coroner to investigate the deaths at the Long Term Care Homes or Retirement Homes due to the COVID-19 pandemic.

The CASU Detectives are trained in Major Case Management techniques and related criminal investigative techniques, including the writing of Production Orders, Search Warrants and similar legal documents in the course of their duties. They represent the HPS on multiple committees. At a provincial level, the HPS is a demonstrated leader by being a member on the Law Enforcement Agencies Protecting Seniors (LEAPS) committee and a member of the Joint Agency Intelligence Liaison committee, both multiple jurisdictional law enforcement committees. HPS is also represented at the municipal level through the Older Adult Finance and Physical Abuse, a working group associated to the Senior Abuse Committee at Hamilton's City Hall. Additionally, CASU is called upon to provide training to both police personnel and the community at large. The CASU Detectives have provided training to the Health Care Community, Financial Institutions, Long-Term Care Facilities, Seniors Clubs and various other community partners.

SENIORS SUPPORT OFFICER (SSO)

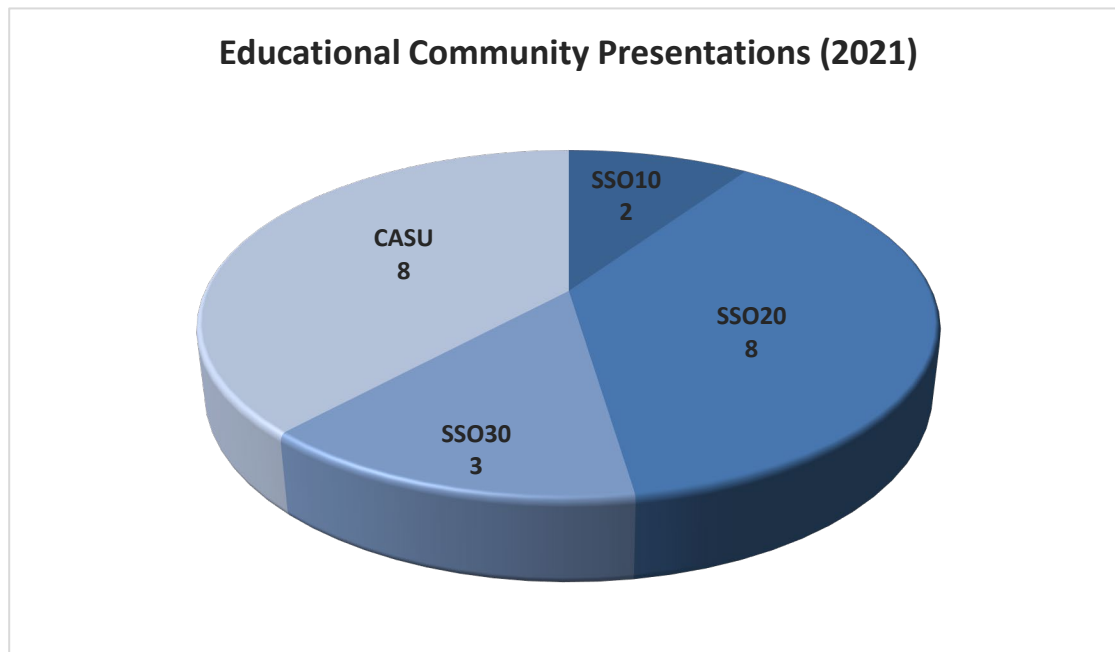

The SSO position was originally piloted in 1996 and evolved into a full-time position in 1998. In the formative years, the position focused on education, not only with service agencies, but also within the seniors' community. The Seniors Support Officer's deal with issues, concerns and challenges that affect the seniors' community with respect to the law by:

- Cooperation - working with community services / agencies to address seniors' quality of life concerns,
- Education - developing, delivering and implementing presentations on seniors' safety and security,
- Investigation - assisting in the investigations of abuse and neglect of senior and / or vulnerable adults.

COMMUNITY PARTNERSHIPS

The Hamilton Police Service believes strongly in fostering effective relationships with all of our community members, including initiatives to promote information sharing. Some of these initiatives included community presentations performed by CASU and the SSO office, which were aimed to increase awareness of crimes that target seniors.

June 15th every year is known as World Elder Abuse Awareness Day (WEAAD), usually the CASU and SSO co-ordinate many events around media and Central station bringing awareness to this event. In 2021, we were not able to host a physical celebration due to COVID-19. Past successful initiatives like the “Be Aware Take Care” resource guide continue to be in demand. The guide warns the community about different crime scams as well as a refrigerator magnet, for seniors, which includes important contact information should something happen to them and emergency services responds to

their home. All of these initiatives improve knowledge and assist in the safety, reporting and prevention of victimization.

CASU detectives conducted presentations to new recruits, new dispatchers, and on the Elder Abuse Investigators course at the Ontario Police College. Outside of the service, CASU presented to the Hamilton Jewish Family Services.

REPORTING CRIMES

The abuse of seniors remains a hidden social problem and is thought to be largely under reported and it appears that COVID-19 has exacerbated this. There are many factors associated with non-disclosure, which have been compounded by COVID-19 and will be heavily researched and documented for many years to come. Even in a non COVID-19 environment, research has identified that those being abused may be unwilling or unable to report it due to cognitive impairment, physical frailty, literacy, language or cultural barriers, isolation, dependence, and fear of retaliation, institutionalization, deportation, abandonment outside intervention or that their standard of living will decrease.

In addition, individuals who witness or suspect that an older adult is being abused may not report the abuse. This could be due to a lack of knowledge about the signs and symptoms of abuse or maybe that the individual may not recognize that the behaviour constitutes abuse.

Certain social barriers may also exist that can increase the risk of abuse or neglect to a senior because of language or cultural barriers. They may have more difficulty accessing services, be hesitant to report the abuse or are unable to recognize the behaviour as abusive. Knowing the barriers that exist, the HPS has been proactive and co-active in reaching out to the community and their partners in an effort to breakdown these barriers.

CASES ASSIGNED TO CASU

In 2021, CASU investigated 160 cases, which is a down from 288 in 2020. As mentioned previously the impact of COVID-19 will take years to determine but the decrease is likely related to a decrease in reporting due to the isolation effects of lockdowns from COVID-19.

CASU investigations are generally generated by:

- Follow up reports taken by frontline officer
- Referral Forms sent by outside agencies (Long Term Care Homes, Residential Homes, Care Facilities)
- Communication Branch Generated Incidents (E-mailed CAD reports.)
- Direct calls from the community

Follow Up Reports from Frontline

Initially, a call for service is generated by the Communications Branch prompting a uniform patrol response to the concerning issue. When these calls involve seniors or vulnerable adults further follow up is often required. The responding uniform patrol officer will then complete a police report. The uniform patrol officer's supervisor will review the report and task it to the Detective Sergeant of CASU for case re-assignment. This is the primary source of calls created for Detectives and SSO to investigate.

Referral Forms

Changes to the Long-Term Care Homes Act (LTCHA) in 2010 made reporting to police mandatory³ of any alleged, suspected or witnessed incident of abuse or neglect of a resident. In response to the legislative changes, CASU developed a standardized referral form for all Long-Term Care Home Facilities within the City of Hamilton. This form was revised in 2019, along with additional outreach training, to assist with understanding the new referral form and protocol. When an incident of abuse or neglect occurs within a Long-Term Care facility the administration staff of that facility must complete the referral form, as mandated by legislation, and email it to the HPS CASU mailbox for further investigation. In 2021, a total of **84** referrals were received by CASU, and investigations initiated, from various Long-Term Care Homes within the City compared to **105** in 2020. When COVID-19 restrictions are eased CASU and SSO officers will resume the education and training about referral for and reporting protocol.

See Long Term Care Referral Form- Appendix A

Emailed CAD Reports

When a call is received by the Communication Branch, involving a senior or vulnerable person the call is automatically flagged. At the end of the shift a list containing all of the flagged incidents are automatically emailed to the CASU mailbox for review. At the beginning of every shift, officers in CASU and SSO will review all the flagged incidents involving a senior or a vulnerable person, as a mechanism of quality control, to ensure that any incidents where a senior has been victimized has not been over looked. In 2021, there were a total of **718** CAD events. This is down from **841** in 2020 that were received by dispatchers involving a senior / vulnerable person, some of which were successfully dealt with by dispatchers and others that required a uniform patrol response and further follow up by CASU or the SSO office.

Total number of CAD cases reviewed by CASU in 2021 was 718

³ Long-Term Care Homes Act, O.Reg. 79/10, s.98.

CAD Reports Involving Senior's and Vulnerable Persons 2021

TRENDS CURRENTLY FACED BY CASU

Long-Term Care/Retirement Home Referral

When an incident of abuse or neglect occurs within a Long-Term Care facility the administration staff of that facility must complete the referral form, as mandated by legislation. In 2021, there was a decrease of **21** referral forms received by CASU from the local long-term care facilities. It is possible that the isolation effects of COVID-19 and residents being required to reduce their social interaction had a part to play, as well as the reduced education and involvement of the CASU detectives and SSO officers within the homes and community.

On May 21st, 2021, The Hamilton Police Services Board received a deputation from Hamilton Senior Advisory Committee. The deputation expressed the concern with the Hamilton Police Services apparent lack of investigations regarding care and deaths at Long Term Care and Retirement Homes in Hamilton. A request was made that the Chief report back to the Board at a future meeting to provide more fulsome comments on care and deaths in Long Term Care and Retirement Homes. The Crimes Against Seniors Unit and the Coroner's Branch of the HPS have followed up with the Chiefs Coroners Office.

Mass Marketing Frauds (Scams)

Mass Marketing Frauds are an area of growing concern in financial crimes, not just in Hamilton, but also across Canada. Seniors and vulnerable adults are being targeted by these frauds. Along with the financial loss suffered by the individual, being a victim to these scams can also have a devastating

effect on their overall health and sense of security. The fraudsters will often use very persuasive language and trickery to lure the victims and continue this deceit in order to take as much money as possible from the victim. Education and awareness campaigns are likely the root cause with many people now being aware many fraudsters are designing more elaborate scams involving greater dollar loss to try and scam seniors.

- Extortion Scam (Canadian Revenue Agency) - A fraudster poses as a Canadian Revenue agent and tells the victim that they owe money on their taxes.
- Romance Scam – A fraudster will gain the victims affection and then use that goodwill to get the victim to send them money or commit fraud against the victim.
- Grandparent/ Emergency - A fraudster calls the victim pretending to be one of their grandchildren who is facing an emergency and needs money quickly.
- Prize Winning (Lottery, Publishers Clearing House, Cruise) - A fraudster calls the victim making them believe they have won a lottery; however, they need to send money in order to claim their prize.
- Phishing Scam - A fraudster uses misleading and deceptive emails, falsely claiming to be from a legitimate organization, in an attempt to have the victim surrender private and personal information.

Extortion Scams

In Hamilton, the Extortion scam remains to be the number one form of fraud faced by seniors. Extortion scams occur when an individual unlawfully obtains money, property or services from a person, entity or institution through coercion. Fraudsters use various reasons why a victim urgently needs to pay them money and in the process impersonate legitimate organizations to convince the victim to pay. Several agencies impersonated in Hamilton include: Service Ontario, Financial Institutions, the Government of Canada and even the Hamilton Police Service. These included suspects calling victims and impersonating themselves as bank employees, advising victims that they have noticed an issue in their account. As well as suspects impersonating government employees advising their social insurance number (SIN) has been compromised, and police officers requesting assistance to catch criminals. In all of these scams, the suspect(s) create reasons why the victim urgently needs to pay the money or why the victim must provide personal information.

A new growing trend associated to the extortion scams is the use of Caller I.D. spoofing. Caller I.D. spoofing involves changing the information that appears on the Caller ID display. Fraudsters tend to falsify the caller ID information and impersonate names and phone numbers, making it appear as if the phone calls are coming from a specific number, either one that is known and/or trusted by the victim, or one that indicates a specific geographic location⁴. Spoofed calls can originate from anywhere internet capability is accessible, in any country. A new and emerging trend for fraudsters is the use of BITCOIN. Fraudsters will convince the citizen using the above-mentioned scams to withdraw cash and then direct them to a BITCOIN terminal in the city. The citizen will then buy BITCOIN and it is transferred into the fraudsters account. These investigations are very complex and policing is just starting to learn the process for following the currency. CASU detectives are participating in training sessions to learn the investigative processes dealing with BITCOIN.

ARRESTS AND CHARGES

The predominant number of charges laid are a result of fraud investigations by CASU. The SSO's focus is primarily on quality of life and preventative initiatives. Additionally, the SSO's and CASU Detectives often will resolve many issues by other means that satisfy all parties, such as education, crime prevention initiatives and networking with community partners. With seniors, the criminal justice system is not always the most effective option. Furthermore, in criminal investigations where family members have been identified as the suspects, senior victims are reluctant to support charges against their own family and prefer alternative resolutions.

Of all the crimes that senior's face the most often reported to the police are financial exploitation, frauds and thefts. These types of investigations are complex, time consuming and challenging. These investigations require multiple interviews, evidence collection including video surveillance, and detailed warrants of financial records.

⁴ Forcepoint (2020). "Cyber EDU, What is Spoofing?". <http://forcepoint.com/cyber-edu/spoofing>.

CHALLENGES

Most of the cases investigated by the CASU are complex. The investigations often do not meet the Ontario Major Case Management (OMCM) criteria; however, they are investigated and managed using the OMCM guidelines/standards.

Significant financial losses through the abuse of Power of Attorney and through other fraud-related offences must be investigated in a timely fashion due to the vulnerability/age of the victims. Because of the vulnerability of the victim, often they are unable to testify or even see the process through, due to the declining mental or physical abilities including death.

Much of the information required to establish criminality comes from financial institutions and health care facilities. Due to privacy legislation, the investigators are required to seek Judicial Authorization to obtain the required documentation. The writing of lengthy search warrants and the process of having them approved by a Judge or Justice of the Peace can take a lot of time and resources. This process often prolongs an investigation for many weeks and sometimes-even months.

FUTURE CHANGES

On June 25th, 2019, The Ontario Association of Chiefs of Police (OACP) adopted Resolution 2019-02 proposed by the LEAPS (Law Enforcement Agencies Protecting Seniors) committee. The resolution calls for the Government of Ontario to develop clear guidelines and best practices for police response

to incidents of abuse against seniors and vulnerable person. Since the resolution was adopted, a working group comprised of expert members from LEAPS, including HPS, and the OACP was formed. The goal of this working group is to work with the government to develop and implement minimum standards in elder abuse investigations, for all police services across Ontario.

CONCLUSION

The Hamilton Police Service Crimes Against Seniors Unit will continue to be a leader in the Province for its advocacy and investigative expertise dealing with persons 60+ and vulnerable adults. The impact of COVID-19 has been profound affecting every aspect of society. It is clear from the 2021 CASU reporting statistics that COVID-19 has had a significant impact on the reporting of crimes and incidents involving Hamilton's aging and vulnerable population. The CASU in collaboration with the Divisional SSO's will continue to strive to adapt and work on innovative methods to educate and investigate the crimes affecting seniors and vulnerable adults even through the difficulties of COVID-19.
